Recording Hire

Full use of all spaces, equipment and instruments with in-house staff at hand to assist with setup, manage tracking and provide guidance in attaining a high-quality professional recording. For higher budgets we can arrange a dedicated sound engineer with over 10 years experience to be at your disposal. Crafting your sound exactly as you want it to be heard.

Rehearsal Space

Use our space and facilities for your rehearsal needs - equipment and instruments not included - PA Speakers, SM58 microphones and drum shells (excluding snare & cymbals) available for £5. Evening surcharge of £10 applies for sessions after 5:30pm.

Photography Studio Hire

Our Lounge is a 28m² room equipped with a 2.7m wide white backdrop (drop height of 3.5m) that can be extended onto the floorspace. Ideal for freelance videographers/ photographers and creators who require more space and want to deliver a higher quality shoot to their clientele. Professional lighting, the likes of Aputure, available for additional hire.

Up to 48 Stems	£175	£125	
Unlimited	£200	£150	
External Engineer	£250	£200	£50
Editing	£20 per hour		

Mixing & Mastering

Have your track mixed with high-fidelity using professional hardware & software (see equipment list) and mastered to ensure it competes in volume with commercial tracks, translates on different devices and meets the specs for distribution platforms/physical release. Includes 1 free revision per song.

Editing

If you require comprehensive editing, we provide a standalone hourly rate for services such as pitch correction, aligning backing vocals/doubles, time correction, comping & levelling. See table below for examples:

Examples of Editing	Duration	Cost
Tuning & Levelling Vocal (1 track)	2h	£40.00

Recording Bundles

Recording a song or making an album can be an expensive and time-consuming process. We provide price reductions for longer periods of hire alongside reduced mix & mastering rates. Our in-house staff will professionally record, mix and master your tracks to the utmost quality. For those with a higher price range, these processes can be undertaken by an engineer with over 10 years of experience. Working with you from start to finish.

Videography

Commercial projects, promotional works, reels and music videos. Create engaging content for your target audience. Pre-production and treatment covers the initial development of ideas (i.e. storyboarding, colouring, location scouting, extras, presentation and scene examples) through to shot lists, call-sheets, costumes and props. Every detail is thought of so you can enjoy the process and create a final product that portrays your story how you imagined.

Performance Video Package

For those on a tight deadline or budget our studio is the perfect stage to create a 4K performance-driven video to accompany and/or promote your next song, idea or project.

LOCATION

We're based in Normanby, Scunthorpe, North Lincolnshire; a small, secluded village just outside of Scunthorpe. A 10 minute drive from the M181, we're surrounded by beautiful scenery and isolated from the noise and hustle of everyday life.
